

Chlorgen add to Rx

Chlorella

Chlorgen provides an excellent source of chlorella pyrenoidosa extract to specifically assist with detoxification of heavy metals and chemical pollutants, as well as to increase energy levels. Chlorella, cultured in pure water, is a green micro-algae providing the highest concentration of chlorophyll and phytonutrients, as well as over 70 macro and micro-minerals. Research indicates that regular use of chlorella can help to guard against heart disease, reduce high blood pressure, lower serum cholesterol levels, improve digestion and promote the growth of beneficial anaerobic bacteria in the gut. Since chlorella contains a broad spectrum of nutrients, it helps to support and repair organs and tissues. Chlorgen is indicated for heavy metal detoxification, cardiovascular disorders, halitosis, immune deficiency, ulcers, slow growth in children, fatigue, gastrointestinal disorders, anemia and for accelerating wound healing. The capsules are 100% pure vegetable-sourced. Product ideal for vegans.

Each Vegetable Capsule Contains

Chlorella 500 mg

Recommended Dosage

Adults: One to two capsules, two times daily with meals.

Children under 12: One capsule one to two times daily with meals.

Contraindications:

None known.

Available as

90 Capsules 598

180 Capsules 598-180
